

1. A clear picture of the installed system, including the inverter and how many batteries installed.

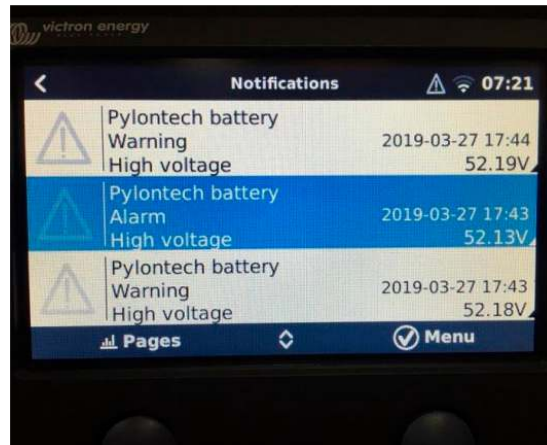

2. A clear picture of the battery label.

3. A clear picture to show the LED status, dips positions, cable connections between batteries. It would be better if you can take a short video for this.

4. A clear picture of the alarm display screenshot if there are alarms.

5. A clear picture to show the voltage at the power terminals.

6. A clear picture of battery view screenshots. About battery view operation, please refer to our SOP.
